Professional summary

I am a barrister and solicitor of the Supreme Court of Nigeria who has had the opportunity to gain experience, advance my career through professional experience and a solid educational foundation. I've honed my critical thinking abilities, legal knowledge, legal appreciation abilities, client's respect and confidentiality qualities.

Over the years, I have carved a niche for myself in the contribution of critical legal thoughts to matters during preparatory work conferences, developing good listening skills and appropriate application techniques. With these abilities, I am looking for the opportunity to work with, and learn from a diverse group of professionals as much as I can obtain expertise in and outside the field of law and create value while at it.
